Coats Duet sewing thread (art. 4645100) in a matching colour – we recommend red, colour 04609

ADDITIONAL MATERIAL

sewing machine

iron

ironing board

straight pins

Size

European sizes 38/39

Instructions

General instructions:

The fabrics may shrink during the first washing. For this reason, we recommend that you wash the fabrics before beginning to cut and sew your booties.

Pattern:

The patterns provided is to scale, please check the correct size of your print out with the help of the control square.

The pattern does not include seam allowance.

Free Spirit 

Sewing instructions:

Shoe piece: for each bootie, cut 2 pieces from each fabric and also 2 batting pieces

Sole: for each bootie, cut 2 pieces from lining fabric and also 1 piece of foam rubber

When cutting out pieces, add 1 cm (3/8 inch) wide seam allowances around all edges.

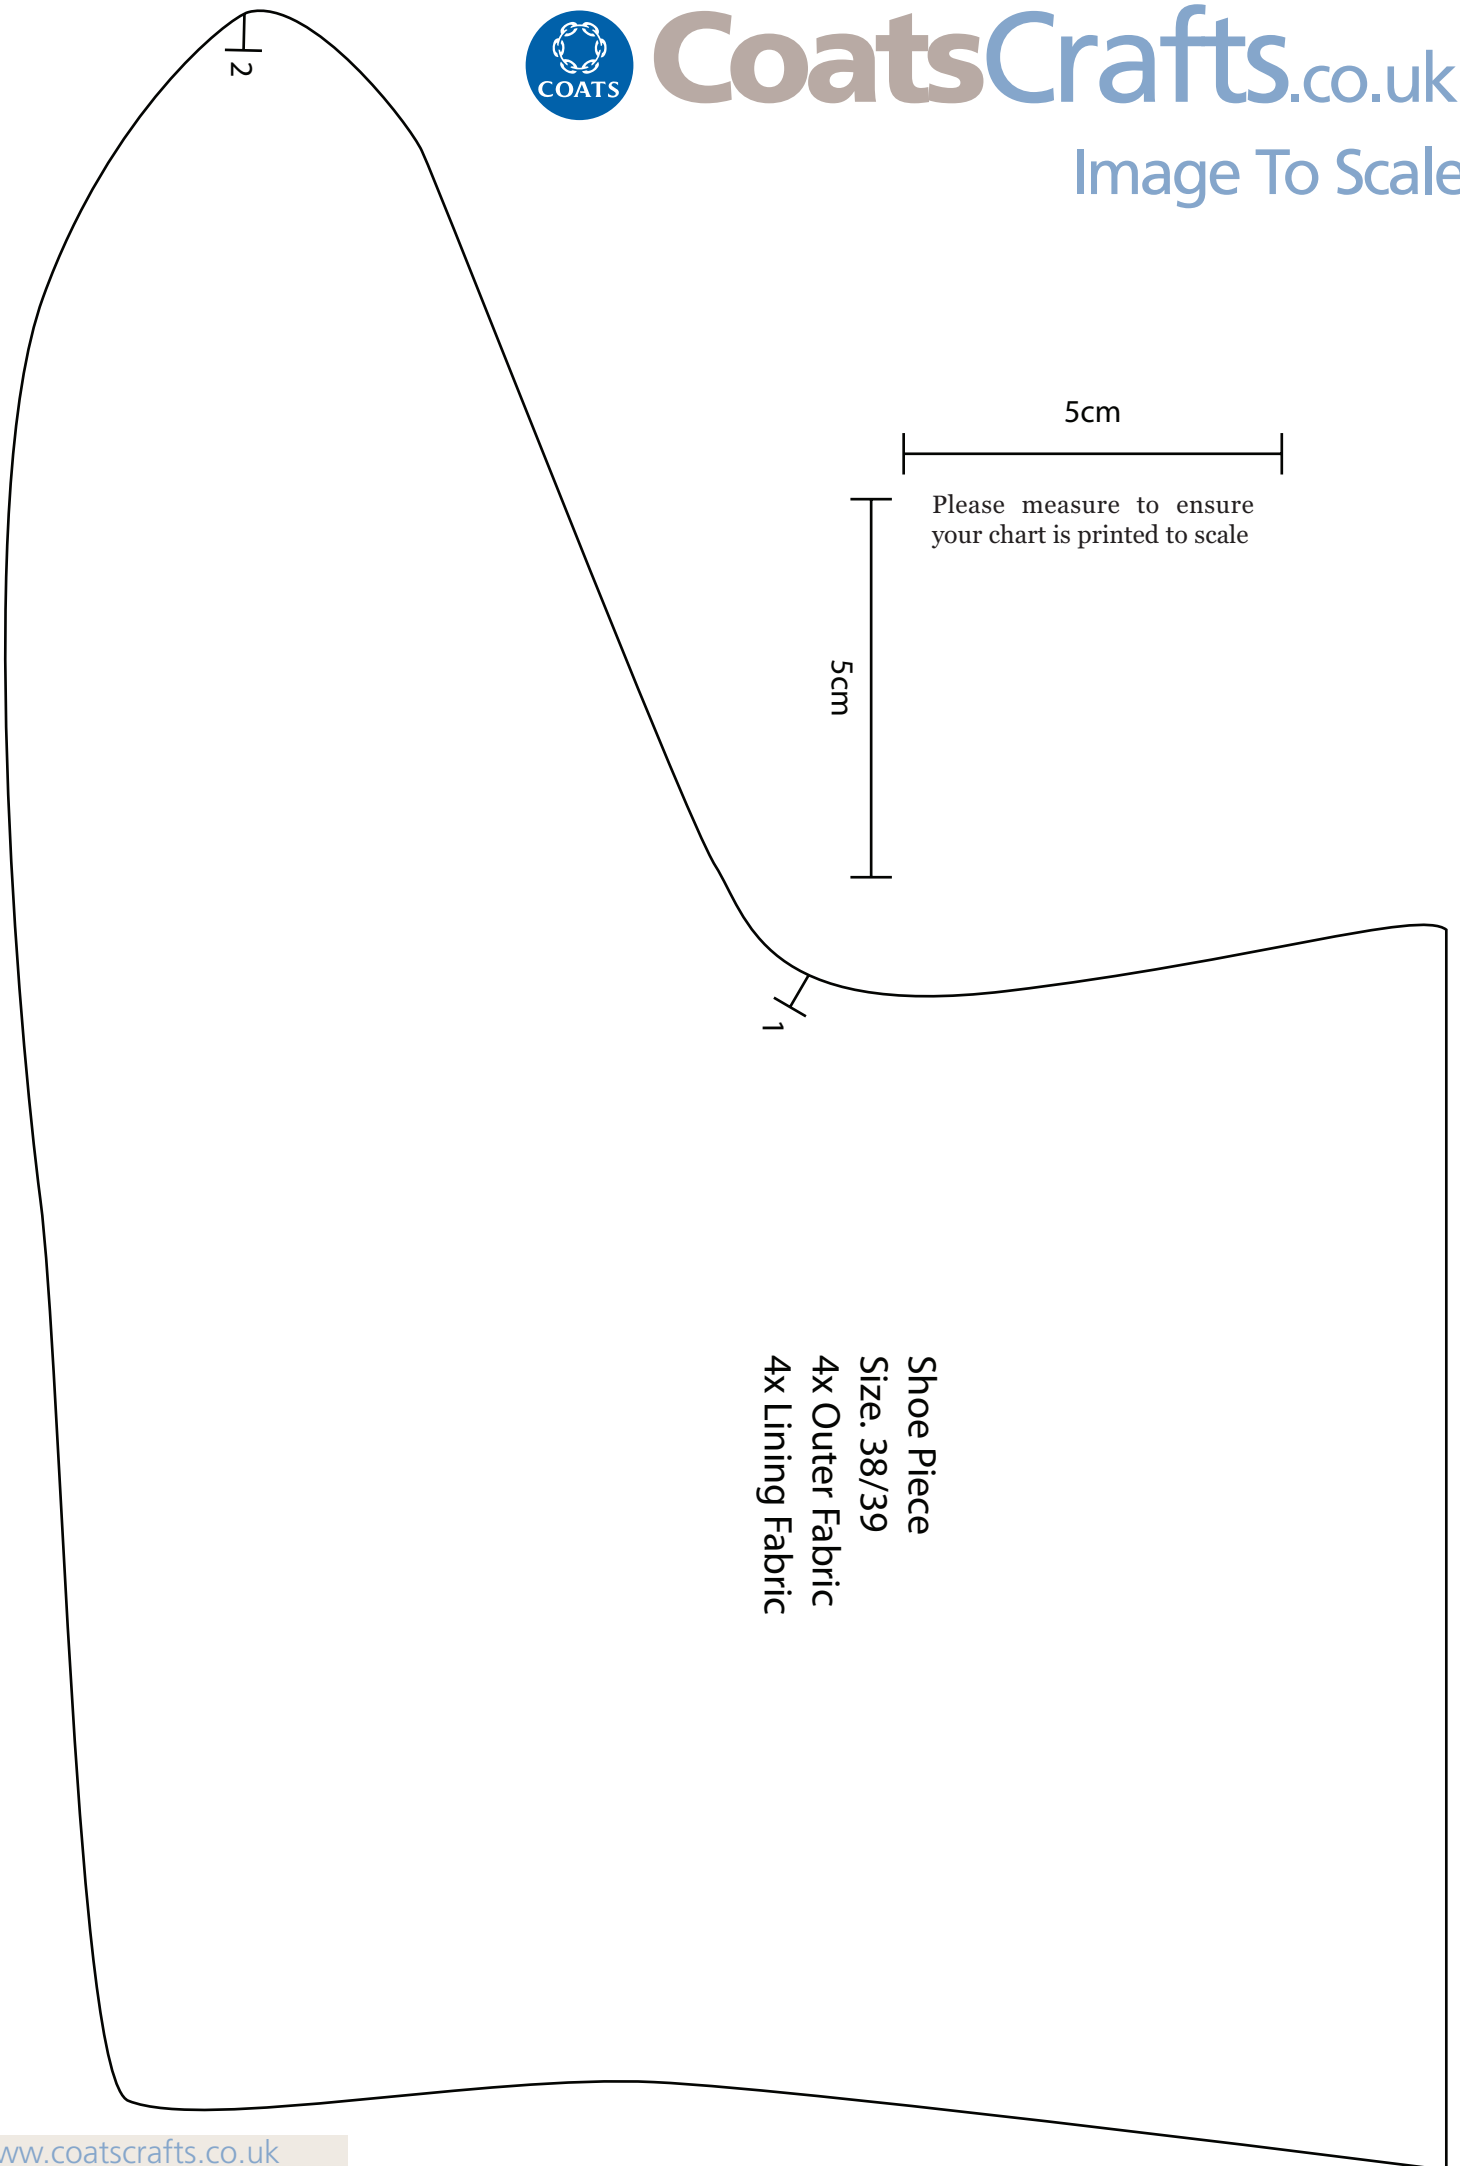

First quilt the outer fabric and the batting together. To do this, lay the fabric on the batting, with the right fabric side facing up. Stitch vertically and horizontally along the lines of the checked print.

Tip: After each construction step, press all seams and edges. This makes sewing easier and makes the seams look neater.

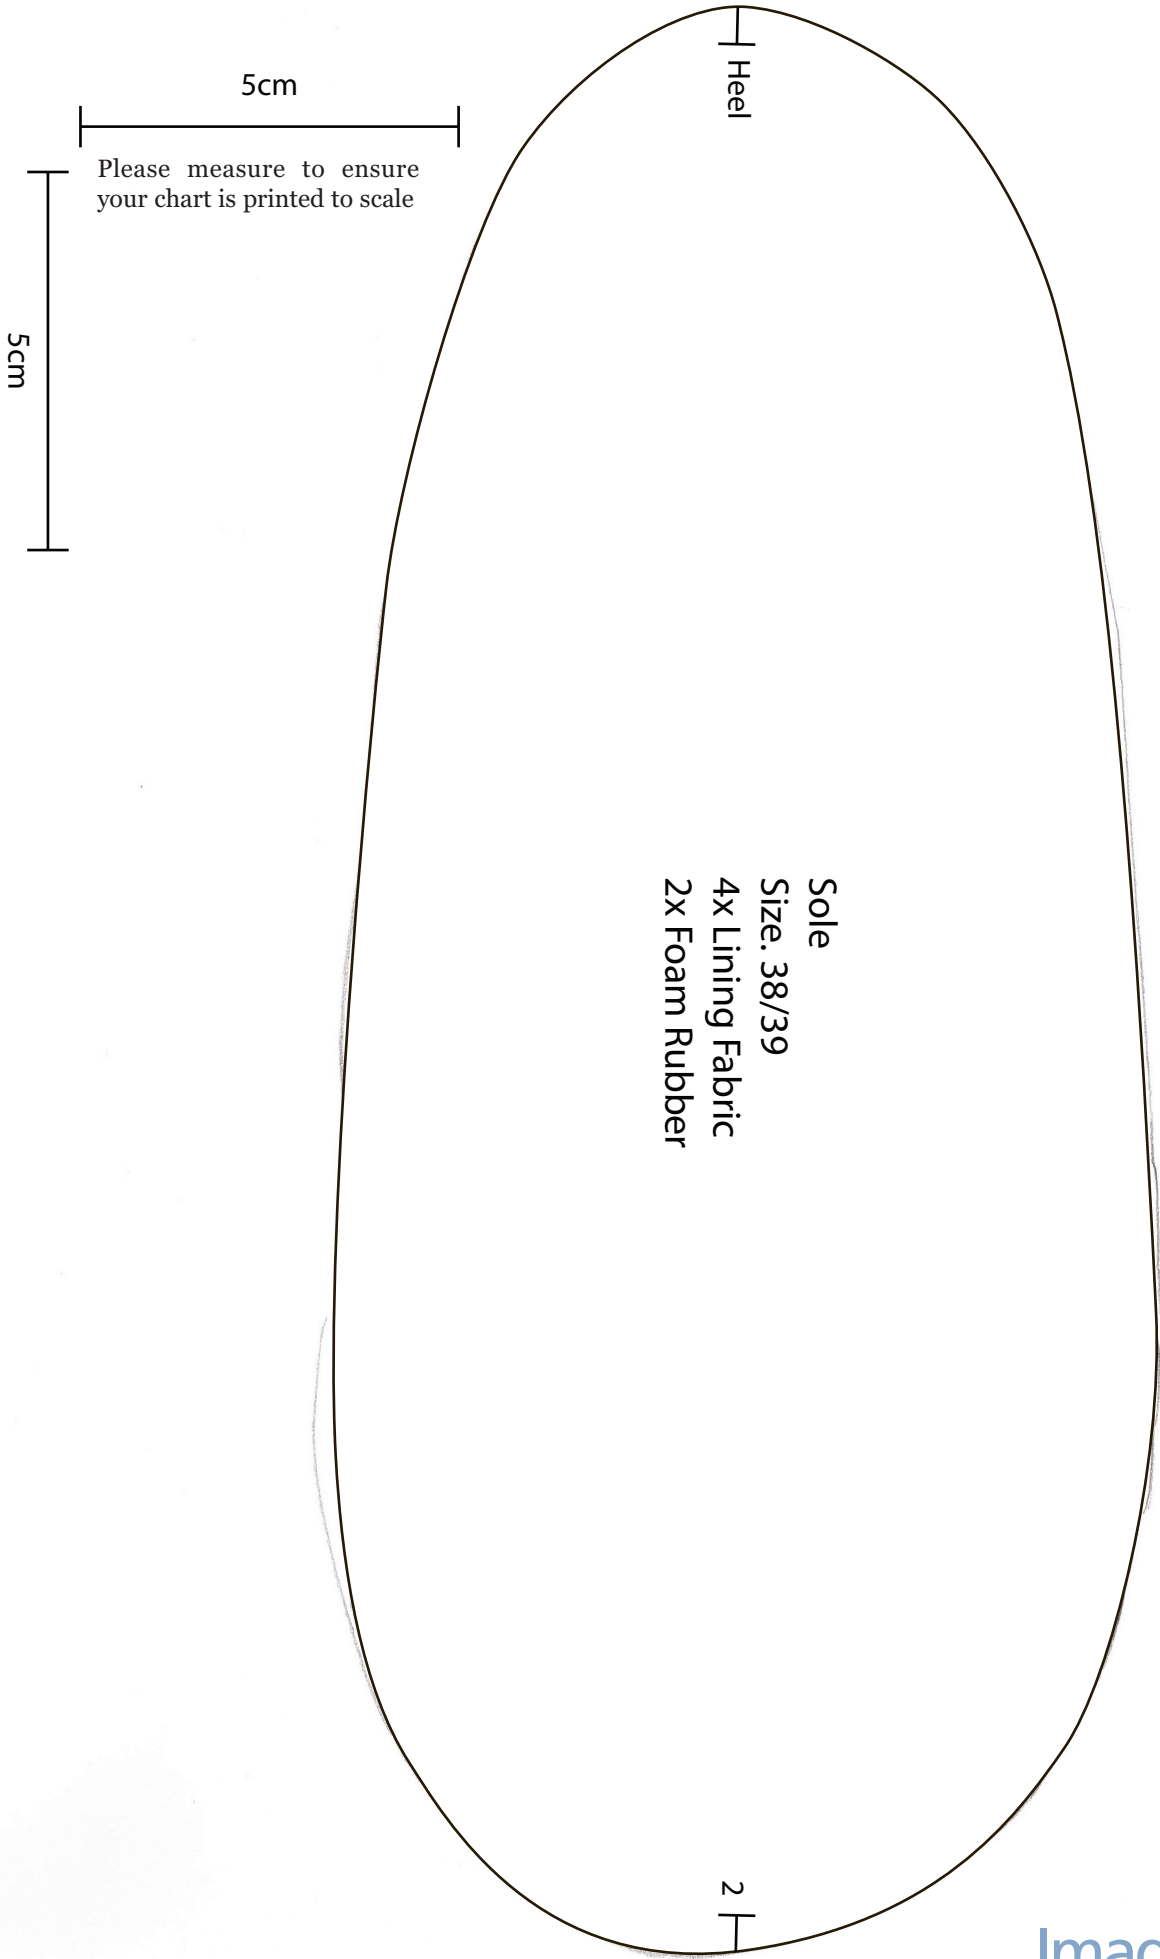

For each bootie, lay the shoe pieces of outer fabric together, right sides facing. Stitch the back seam. Press the seam open. Stitch the lining pieces together in the same manner. Then lay the lining unit on the outer unit, right sides facing. Stitch together from each seam mark (1) to centre back seam. Now lay the outer pieces together again and stitch together from seam mark 1 to seam mark 2. Stitch the lining pieces together in the same manner.

For each sole, lay the fabric pieces together, wrong sides facing, then lay the foam rubber piece between the fabric layers. Stitch all three layers together, around outer edges. Stitch sole to top unit. On inside of bootie, finish edges of allowances with zigzag stitching. Turn bootie right side out. Make the second bootie in the same manner.

Your warm booties are ready to wear.
